We are well-experienced with respect to compliance with the Stark Law, Anti-Kickback Statute, False Claims Act, HIPAA, and a myriad of other state and federal regulatory regimes. We keep current with constant changes through independent research and our membership in a variety of professional organizations. We advise our clients, to keep them on the right side of the compliance line. When our clients detect potential issues, we guide them through internal investigations and retention of external auditors and consultants. Finally, we help our clients assess their options, including whether self-reporting is advisable.
